FDA Letter

We confirm that our Resin Manufacturers film grade resin formulations as sold, meet the requirements of Title 21 of the Code of Federal Regulations for contact with food as follows:

Linear Low Density Polyethylene resin grades comply with Part 177.1520, (C)(3.1a), subject to conditions of use and food type limitations described in the regulations. That is, the products are cleared for use in articles that contact food, except for articles used for holding or packing food during cooking. Furthermore, all additives used in our products are explicitly permitted for use by the Food Additive Regulations, either pursuant to Parts 178.2010, 178.3860 or a suitable generally recognized as safe listing under Parts 182, 184, or 186 of the food additive regulations.

Versa Pak, Ltd. relies without further investigation or testing, on the certifications of our suppliers that the raw materials we purchase from our suppliers comply with the above regulations.

Versa-Pak, Ltd. makes no further representations or warranties of any kind, expressed or implied, with respect to these products, whether as to merchantability, fitness for particular use or otherwise.
