RoHS Letter

Our resin manufacturers do not deliberately add cadmium, chromium, lead or mercury to the title grade, nor are such metals present, to the best of our knowledge, in any of the raw materials used to manufacture the resin.

Please be advised that our resin, as supplied by our resin manufacturers, will not contain Cadmium, hexavalent chromium, lead or mercury at concentrations of 100 ppm (total) or above, thus satisfying the requirements of the CONEG Model Toxics in Packaging Legislation. As noted below, we cannot however be held responsible for any subsequent addition of, or contamination with, such metals which may occur during shipment, receiving, or storage of your finished product.

Versa Pak, Ltd. relies without further investigation or testing, on the certification of our suppliers that the raw materials we purchase from our suppliers comply with the above regulations.

Versa Pak, Ltd. makes no further representations or warranties of any kind, expressed or implied, with respect to these products, whether as to merchantability, fitness for particular use or otherwise.

Thanks,

Joel T. Giesige – Quality Manager
